Comments:

General

- Well appreciated day. Inputs on concepts and development but also the cases well appreciated. Good to gain insights in ongoing review/management response of SDC. Group-work was a bit “difficult”. Thanks.
- It was a very good first introduction/summary on LRRD. Looking forward the next steps.
- Good first step – let us continue working on the humanitarian-development nexus within the platform.
- Thanks for organizing. A big topic with a long history.
- As a new “young” member of Terre des hommes, it was a really fruitful presentation/learning event.
- A plus to LRRD-Nexus overall presentation. (+) last working group design.
- A minus to the 3 presentations (good) but a bit personal. Internally focused and not enough to LRRD-Nexus lessons learnt feedbacks.
- Liked the project examples. A lot of the LRRD action, examples seem like good sense… capture the specialised or more explicit LRRD/News examples in the LE report. Merci!

- Sorry but did we have the opportunity to suggest other presentations?
- Would be good to have all presenters condensing their key messages for the topic at the end of the presentation.
- More Q&A with key speaker (SDC)
- The final working group session was very useful as it launched a huge reflection
- Last Exercise shall be more framed and facilitated.
- Need to be more elaborate of this workshop
- In future make recording for colleagues not present.

For Follow-up in LRRD Activity Line Phase 2019-2023

- Some macro/institutional arrangements for LRRD/Nexus could be further explored in the future.
- The subject of financing aspects were not enough explored/discussed. Donors, groups, possible solutions. Just a suggestion. Thank you.
- More Fundraising and donors' strategy addressed.
- We went from the assumption that the H-D Nexus is THE way to go, but would have been nice to also challenge that… to see the challenges & opportunities.
