Invitation to a webinar:
Presentation of key products

Useful tools, guidance and documentation for practitioners in Disaster Risk Reduction (DRR) / Climate Change Adaptation (CCA)

17th December 2019, 10h30-12h10 (CET)

Outline and objectives

The Swiss NGO DRR Platform is a network of 17 Swiss Based NGOs, which fosters mutual learning, conceptual support and advocacy in DRR and CCA. Based on an intensive work related to documentation, analysis and conceptualization with feedback from practitioners a series of products have been elaborated. These tools, documentations and instruction notes are now available to the public. This webinar aims to present and instruct these products with a space for Q&A and feedbacks.

Audience

Practitioners working in development and humanitarian contexts ranging from DRR/CCA experts to generalists involved in project design, implementation, evaluation, steering and management, fostering a disaster and climate resilient development.

Program

- Introduction and presentation of the main products
- Q&A for each of the presented product
- Outlook of Platform events and products

Products to be presented

- **DRR/CCA mainstreaming guidance** (2019) Key principles and an overview of selected tools.
- **Towards climate and disaster resilient development** (2019) A packing list for your advocacy journey.
- **Indicator tool box** (2019) An updated set of indicator to design and monitor DRR projects.
- **Evaluation of cost-benefit analysis tools for DRR** (2019) A description and analysis of key tools with a decision tree for selection.
- **Inclusive DRR Hands-on Tool** (2019) A step-by-step practical guidance on inclusive DRR field work.
- **Where people and their land are safer - A Compendium of Good Practices in DRR** (2017) Analysis and best practice documentation from 11 countries across the world.
