What did you particularly like about the event?

Networking mix

- Met people from different organisations
- Interesting mix of participants (different backgrounds and different countries)
- Possibility of networking and discussion/exchange
- Meeting DRR workers
- To share experience
- Quite enough time for networking + different types of methodology

Content

- Discussion on innovative ideas
- Technology based practice
- input by Knud / NCCCC (mentioned twice)
- Some new and useful issues

Methods

- Well organized + good combination of presentations and interactive discussion
- Good methodology + good opportunity to share experiences
- Mix at methods used
-
- Market place posters were useful + the game
- Discussion and case studies
- Mix of presentation with more interactive sessions

Logistics

- The venue, amazing location (2)
- Food and friendly ambiance
- Good ambience for active participation and reflection
- Seating arrangements + Time management (no delays)
- Input Markus Zimmermann

Suggestions for improvement:

Topic/ content

- Issue "linking beyond" wasn't well addressed
- Introduce new tools
- Be more specific to the point of flood management, too much basic DRR
- More innovation, provide added value and new material
- Red thread was missing

General

- Should be 3 days instead of 2
- Gender balance
- Quick references to the other events (key highlights)
- Share the reference materials after the Workshop

Method, group work, poster, presentations

- All posters presentations at the first day + make group workers more focused
- Larger posters / more informative
- More case studies
- Some more case studies from the developing countries
- More enthusiasm in the facilitation + more dynamism
- Paper versions of slides not needed but maybe share electronic versions
- Some of the presentations could have fewer information
- Go through the presentations of your project colleagues before hand
- Prefer working in small discussion rounds + have less plenary sessions
- The group was very big
- More structured café to be more effective
