

Disaster Risk Reduction and Fragility

Nicole Clot and Esther Marthaler

HELVETAS Swiss
Intercooperation

Learning Event on DRR and
Fragility

6th June 2013

Swiss NGO DRR Platform

Working Group I: Case Study

1. What questions would you ask to assess if the project is DRR- and fragile/conflict- sensitive?
2. How can you ensure that DRR measures to build back better contribute to mitigating tensions instead of contributing and causing further conflicts?

Time: 60' discussion and 5' presentation in the plenum (key messages)

Working Group II

1. From your organisational experience, what are the major
 - **lessons learned** in the case study but also based from your own experience in other countries
 - **challenges** your projects have been facing?
2. Looking at the **lessons learned and the policy environment**, what are the implications for your own organization to overcome the 'silo thinking'?

Time: 45' discussion and 5' presentation in the plenum (key messages)
